

JUREDDY LAKSHMI MANOHAR KUMAR

Email: LmanoharK9@gmail.com | Phone: +91 9705706928 | LinkedIn: linkedin.com/in/jureddy-lakshmi-manoharkumar-1a46b8135

PROFESSIONAL SUMMARY

Results-driven Full Stack .NET Developer with 4.8 years of experience building enterprise-grade applications using ASP.NET Core, .NET Core, C#, SQL Server, Angular, React, REST APIs, Azure, Docker, and JWT Authentication. Experienced in backend architecture, workflow automation, CI/CD support, cloud deployment, audit management systems, operational compliance platforms, and scalable enterprise solutions. Skilled in mentoring junior developers, coordinating with QA and BA teams, production support, debugging, deployment activities, and Agile development methodologies.

TECHNICAL SKILLS

- **Backend:** .NET Core, ASP.NET Core, ASP.NET MVC, C#, ADO.NET, Entity Framework, LINQ, REST APIs, Web API, JWT Authentication
- **Frontend:** Angular, React, JavaScript, jQuery, HTML5, CSS3, Bootstrap
- **Database:** SQL Server 2008/2012/2017/2022, Stored Procedures, Views, Functions, Query Optimization
- **Cloud & DevOps:** Azure App Services, Azure DevOps, Docker, Containerization, CI/CD Pipelines, Git, IIS, Postman
- **Methodologies:** Agile, SDLC, Unit Testing, Production Support, Deployment Support, Troubleshooting

EDUCATION

Bachelor of Technology (B.Tech) – JNTUK, Kakinada

PROFESSIONAL EXPERIENCE

Full Stack .NET Developer | Prospecta Technologies India Pvt. Ltd.

Sep 2021 – Present

- Developed and maintained enterprise aviation applications using ASP.NET Core, C#, SQL Server, Angular, React, and REST APIs.
- Designed backend modules for airport permit management, CAPA workflows, audit systems, permit violations, and compliance tracking platforms.
- Built RESTful APIs and workflow automation modules supporting multi-stage approval systems and operational tracking.
- Implemented JWT-based authentication and role-based access control for secure enterprise applications.
- Optimized SQL queries and stored procedures to improve workflow performance and reporting efficiency.
- Worked on Docker containerization, Azure deployment support, and CI/CD pipeline configurations using Azure DevOps.
- Developed responsive frontend modules using Angular, React, JavaScript, jQuery, and Bootstrap.
- Monitored and guided junior developers during development, debugging, deployment, and enhancement activities.
- Coordinated with QA and BA teams for requirement analysis, testing support, issue resolution, and production releases.
- Handled production support, deployment activities, troubleshooting, and operational enhancements in Agile environments.

KEY PROJECTS

Aviation Safety Management System | BIAL

Technologies: .NET, ASP.NET, SQL Server, JavaScript

- Developed aviation safety workflows for hazards, incidents, inspections, audits, and operational tracking.
- Implemented compliance tracking and operational reporting modules for enterprise workflows.

Ground Operation Performance Audit System (GOPA) | Air Arabia

Technologies: ASP.NET, C#, SQL Server

- Developed operational audit and CAPA management platform for airport ground operations.
- Built workflow automation, inspection tracking, and compliance monitoring modules.

Airport Audit Management System | Pawan Hans

Technologies: ASP.NET, C#, SQL Server

- Developed airport audit management modules supporting inspections, operational audits, and workflow approvals.
- Implemented backend reporting and compliance tracking functionalities.

Airport Permit & Permit Violation Management System | Adani Airport

Technologies: .NET Core, SQL Server, Web API, Docker, Azure

- Developed permit and permit violation workflows using .NET Core, REST APIs, and SQL Server.
- Worked on Docker deployments, Azure hosting support, and operational approval systems.

Airport Permit & Permit Violation Management System | Noida International Airport

Technologies: .NET Core, SQL Server, Web API, Docker, Azure

- Developed operational permit management and compliance tracking platform.
- Implemented backend workflow automation, API integrations, deployment support, and operational reporting.
